

Get a Chance to Spend a Holiday with the Nimbus Team in Abu Dhabi in Early Autumn!

How Do I Enter?

Become one of the **40** fastest enterprising users to achieve a 42.000 BUSD turnover within your Nimbus Plus first line by adding at least 28.000 BUSD to Staking and acquiring Nimbus NFTs (Smart Staker & Smart LP NFT) for a minimum of 14.000 BUSD.

Note that your personal Staking, as well as NFTs acquired by yourself, is not considered for this goal, as we want to ensure fairness and encourage greater participation from everyone.

To ensure your local teams' prosperity and development, the 30.000 BUSD turnover will secure one ticket for you personally, and another 40% of this amount, i.e. 12.000 BUSD, will be counted towards the team score. This is done in order to provide extra places for your team members. Thus, out of the 40 available tickets, 28 will be awarded to those who made a turnover of 42.000 BUSD within their first line, and the remaining 12 tickets will be allocated to the team. The leaders will be responsible for selecting those team members who will receive these tickets.

Hurry up! Access the Nimbus Plus and get down to business on July 10, 2023

When Can I Participate?

The contest duration is set for the following dates:

July 10, 2023 - September 5, 2023

Important note

Only new Staking made and new NFTs acquired between July 10, 2023 and September 5, 2023 will be counted in the turnover and the contest results. Staking made and NFTs acquired before the contest are not counted, as well as restaking.

It is worth mentioning that for the NFTs to be counted in the total turnover, they should be added to NFT Staking till October 1, 2023. This way, the NFT will be transferred from your account to the Staking smart contract and let you participate in the contest and, moreover, receive an additional reward of 15% of the NFT acquisition amount (in NIMB tokens). On October 1, you will receive your NFT back, as well as the reward. Note that you cannot withdraw the NFT from Staking until this date.
